

This is NOT a study guide. It is a final checklist. Do you know what all of these terms mean and how they fit into context with the other terms they are grouped with?

- Chromatin
- Histone
- DNA
- Chromatid
- Chromosome
- Homologous Chromosomes
- Tetrad
- Centromere

- Spindle Fibers
- Centriole

- Cell Cycle
- Interphase
- G1
- S
- G2
- G0
- Cancer
- Tumor

- Mitosis
- Prophase
- Metaphase
- Anaphase
- Telophase
- Cytokinesis

- Meiosis
- Meiosis 1
- Meiosis 2
- Independent Assortment
- Crossing Over
